

**MUCH DAMAGE  
IS REPORTED  
IN SAN JOSE**

## Shocks Strongest Felt in Quarter of Century— American Legation Build- ing Collapses But U. S. Minister and Consul and Their Families Escape Unhurt.

(By The Associated Press.)  
**SAN JOSE, Costa Rica, Mar. 4.**  
 A series of earth shocks, the strongest felt here in 25 years, beginning at 4 o'clock this morning damaged fully half the buildings of San Jose and caused a number of casualties.

A part of the American legation building collapsed in the American minister and his family and the American consul and family, escaped injured. No injuries to any American residents have been reported.

Communication with neighboring cities is entirely cut off.

**LASTED SEVERAL HOURS**  
(By The Associated Press.)  
NEW YORK, Mar. 4 — Earthquake shook Port Limon and San Jose Costa Rica early today, said a message received here by the Associated Press.

sage received here by the American Cables. The first quake occurred at about 5 a. m., and was followed by others. The tremors were continuing at 8 o'clock. Many buildings in San Jose were damaged.

**FEELT IN NICARAGUA**  
SAN JUAN, Delsur, Nicaragua, Ma.  
4.—Three distinct earth shocks were  
felt here shortly after 5:15 o'clock  
this morning, New York time. No  
damage has been reported.

**RECORDED AT WASHINGTON**  
WASHINGTON, Mar. 4.—A "severe" earthquake, about 2,100 miles from Washington, in a southerly direction, was recorded early today on the seismograph at Georgetown University. Father Tondoroff, the seismologist, said the shocks began at 3:25 a. m., reached maximum intensity between 5:23 and 5:26, and were still in progress at 7 o'clock.

**Tomorrow Is  
Dollar Day**

Tomorrow, March 5th, will be celebrated by a number of Danville merchants. Special values are being advertised today for tomorrow only as many stores have made extensive preparations to give their customers

values that will prove to be worth while for them to shop tomorrow. Among those advertising special inducements for tomorrow's shopping are:

Belk's, Efrid's, Gilmer's, Harnsberger's and Johnson's department

stores, Rosenstock's and Hagar and Matney, ladies' wear; J. C. McFall and Frank McFall, druggists; Honn and Speer Co., and P. P. Booth, jewelers; Lea-Lewis and O'Brien, Chism and Parker, furniture stores.

## COUNCIL OF EXPERIMENTAL

Formal notice was served on the passengers, and we calculate the city council this morning by C. G. as follows:

Power and Traction Company, announcing the fact that it proposes a ten days' experiment with the five-cent fare, beginning April 6th, in an effort to determine if the cost of riding is actually the cause of a decline in patronage.

in income. This is done in order to explain to the council the departure from the terms of the franchise. The letter addressed to the council is as follows:

Panville, Va. March 4, 1924.  
 To the Honorable City Council.  
 Danville, Va.  
 Gentlemen:

**Subject: 5-Cent Cash Fare.**  
As you may have seen from the papers, the Danville Traction & Power Company intends, beginning April 6, to carry 27 per cent. more passengers than it has been carrying. Beginning two weeks before the fare is put into operation, the interest on the bonds will be 5 per cent. per annum.

1924, to try to operate on a 5c fare. This experiment will last for at least ten days, and if the resulting receipts are satisfactory, the five-cent fare will be maintained as long as resulting revenue is sufficient to cover the cost of the experiment. The experiment will be advertised in the newspapers, by hand bills and by posters on the cars, and urged upon the people who would have to use the 5c fare to patronize it.

The result of the experiment will be published daily as soon as the turns can be made up in our office.

inclusive, equal our receipts from April 8th inclusive of last year, the five-cent cash fare will be continued indefinitely.

The period of April 5th to 14th selected for comparison is selected because April 8th of last year was Sunday and April 8th of this year is Sunday. It would obviously be an unfair

As our franchise calls for a fare not exceeding 7c, we assume Council will have no objection to experiment being made.

our highest days.  
We figure if our receipts equal last  
year we must carry 27 per cent more

NEWSPAPER ARCHIVE

**DEATH OF MRS. SOPHIA C. DEAL**  
Mrs. Sophia C. Deal died suddenly at her home in Petersburg, Va., last Friday night. She was fifty-six years of age. Until ten years ago she was a resident of Danville but since that time has made her home in Petersburg. The remains were brought to this city Sunday night and taken to the home of her brother, T. W. Whitman, on Keen street. The funeral was conducted from the residence Monday afternoon at 3 o'clock by Rev. W. T. Doggett assisted by Rev. Mr. Gresham. Interment was at Lee-mont cemetery.  
Survivors are: The husband W. H. Deal, two sons, one daughter two brothers W. T. Whitman, of Danville and A. W. Whitman, of Norfolk, and two sisters, Mrs. J. W. Galloway, of Morganton, N. C., and Mrs. Jane Harvey, of Austin, Texas.  
The pall was borne by E. O. Hall, W. L. Whitman, Walter Hayes, W. E. Drumwright, Walter Powell, Will E. Galloway, A. E. Newton and N. G. Foster. Flower-bearers included Mesdames G. A. Motley, Henry Shorter, George Willford, A. L. Hurley, Ollie Trent, E. Haythe, H. Tate, Walter Hayes, J. R. Denny, R. E. Rodgers, C. H. Mangum, W. H. Rodenhizer and Miss Ella Brumbelee.

**FOR ITCHING TORTURE**  
Use Antiseptic Liquid Zemo.  
There is one remedy that seldom fails to stop itching torture and relieve skin irritation, and that makes the skin soft, clear and healthy.  
Any druggist can supply you with Zemo, which generally overcomes skin diseases. Eczema, Itch, Pimples, Rash, Blackheads, in most cases give way to Zemo. Frequently, minor blemishes disappear overnight. Itching usually stops instantly. Zemo is a safe, antiseptic liquid, clean, easy to use and dependable. It costs only 35c; an extra large bottle, \$1.00. It is positively safe for tender, sensitive skins. Zemo Soap, 25c—Zemo Ointment, 50c.

**Best Laxative for Bowels**  
If Headachy, Bilious, Sick, Constipated  
**10¢**  
**CASCARETS**  
WORK WHILE YOU SLEEP  
Feet tired? No gripping or inconvenient! Follows a gentle liver and bowel cleansing with "Cascarets." Sick Headache, Biliousness, Gases, Indigestion, and all such distress gone by morning. For men, women and children—10c boxes, also 25c and 50c sizes, any drug store—adv.

**Baby arrived safely. Mother's Friend praised!**  
"I WANT to express my appreciation of 'Mother's Friend.'" says Mrs. Laura Hendrix, Gramercot, Okla. "I am the mother of six children. I used 'Mother's Friend' with every one of my babies. I think it is the greatest help that has ever been discovered for the expectant mother. I can't do without it. I recommend it to all expectant mothers. I can't say too much for it."  
"Mother's Friend" was originated by an eminent physician. It has saved thousands of expectant mothers from useless suffering. It is externally applied; aids the muscles and tissues to relax easily and readjust themselves to the changes during expectancy and up to the moment baby arrives.  
"Mother's Friend" is safe and beneficial, and contains no narcotics or harmful drugs. Avoid more greases and useless substitutes.  
Use "Mother's Friend" as our mothers and grandmothers did. Don't wait until too late, and meanwhile write to Bradford Regulator Co., B.A.74, Atlanta, Ga., for a free illustrated booklet, containing information every expectant mother should have. "Mother's Friend" is sold by all drug stores.

Proven Safe for more than a Quarter of a Century as a quick and effective remedy for Colds, Grip and Influenza, and as a Preventive.  
The First and Original Cold and Grip Tablet  
Price 30 Cents

**Can School Bonds Be Financed From Current Revenue?**  
The status of the vitally important matter of taking some steps to provide a franchise for the public schools of this city has not yet been reduced to a definite and specific plan, but the subject is one of the most important among a large number of thoughtful and public-spirited people. While it is assumed that it will be imperative that bonds shall be asked as a means of financing the construction program proposed as the minimum revenue for the calls of the school authorities and the various inter-related educational organizations, an important phase of the matter yet to be decided is whether in maintaining an issue of securities it will be necessary to increase local school taxation and if so how much the increase will be.  
In this connection it is of interest to note that at least one well known citizen who has an excellent record as a franchise does not believe that it will be necessary to increase school taxes at all in order to provide for interest and a sinking fund for the retirement of such a bond issue as may be deemed really imperative at this time. This citizen, who did not wish to be quoted but whose views are known to many, expressed himself as favoring the minimum bond authorization deemed necessary to provide for the immediate and imperative needs of the schools. That done, he is confident that the bonds authorized can be provided for out of present current revenues, provided these revenues are carefully husbanded and frugally expended. The first step in any definite movement to meet the existing situation, said this citizen, would involve a getting-together of those interested and an ascertaining of just what the schools need for half a day. The whole number of such classes, it is asserted by some, might be amply accommodated by the provision of five or six rooms. When such a number of rooms is provided in connection with the total number, it is said that the congestion will be found to be by no means so serious as many apprehend, and that relief measures need provide only for the present overflow, with some margin to care for prospective early increases in the number of pupils enrolled.  
A full and free discussion and a larger and clearer understanding of actual needs and of the minimum requirements to meet them would provide light by which to gauge the building program for the ensuing fiscal year of the municipality, and also give a definite idea as to how much or little will be actually needed to provide ample and suitable accommodations for immediate needs.  
The first step in the school program is awaited with interest and expectation, and it will probably have reference to the ascertainment of minimum actual needs. The idea that the school bonds can be cared for and carried out of current revenues without a tax increase, is one which will place a new aspect on the problem. If the feasibility of this plan can be satisfactorily demonstrated, such a move logically will come from the Board of School Trustees, and a joint informal meeting of that body and the superintendent with the Council would provide a forum at which the actual needs and the minimum requirements to meet them can be threshed out.

**KNIGHTS TEMPLAR INSPECTION AND DINNER IS FEATURE**  
The visit of Grand Commander Fuller and Grand Generalissimo Eddy, together with Grand Recorder J. G. Hankins to Dove Commandery No. 7 Knights Templar on Thursday night and an inspection of the commandery is the leading Masonic event of the month and promises to bring together the largest assemblage of uniformed Knights Templar in the history of the order in this city.  
A banquet to be served in the refectory will provide the festive feature. A few brief addresses of an enthusiastic nature will be made at the banquet, which promises to be worthy of the collations spread in any former year by the commandery. All the members residing in this city, are being urged to make special effort to be present on this occasion, and the out-of-town members are already sending in assurances of their intention to be present and to share in the pleasures of a noteworthy evening.  
Grand Commander E. R. Fuller is a man of prominence well known throughout the State and is a pleasant speaker. It will be the first opportunity of many of the members to see and hear their commander and in doing this to enjoy an excellent banquet and an imposing spectacle. Already it is assumed that fully 200 knights in full regalia will be present.

**An Even Greater Crowd at Carnival**  
The second evening of the Elks' Carnival was marked by a distinct advance in attendance, by considerably larger receipts, by an even better vaudeville performance than on the opening night. The dancing, too, was participated in by a larger number and continued an hour later than on Saturday night.  
By midweek the carnival will have attained its full swing and the capacity of the building will probably be taxed as the week advances. Last night's crowd, at a conservative estimate based on tickets sold or presented for admission for the first time indicated that no fewer than 900 persons were present during the evening, and that for an indoor crowd thus early in the week was very gratifying to the projectors of this benefit and pleasure program. Several additional wheels began revolving last night and practically all of them proved attractive to a large number.  
The competition for the automobile, the suite of furniture and the other prizes has also become lively, although as yet it is impossible to forecast the leading competitors. These and other valuable awards are to be announced at the grand ball which is scheduled for next Monday night at the Elks' hall. The grand ball, crowned and the results in the prize contests announced. Votes for the honors are given with purchases or expenditures at the carnival and are being eagerly sought by the competitors.  
The \$10 gold prize awarded by lot on the opening night went to Roy Flynn, while last night's winner was Mr. Henry. This prize stimulating interest and attendance is awarded each night and is held by the crowd, incidentally, until the award is made known.  
Last night's vaudeville bill was an unusually clever and attractive one and was enjoyed by the large crowd which almost absorbed the available room when the dancing was at its height. The sociability which marks all Elk entertainment was everywhere in evidence, and the members of the order in the role of hosts looked after the comfort as well as the interest and pleasure of all passing the portals of the home. Excellent order prevailed and the spirit of camaraderie and conviviality characterized the occasion, no seemingly incident developing to mar an evening of diversion and amusement.  
The program for tonight will embrace another good vaudeville bill, the drawing for the attendance prize, the concert device provided for appeal to the caprices of those attending, and finally dancing always a popular feature of social life and entertainment in this city. With good music and the floor thronged with dancers, the scene is a spirited and attractive one.  
Interest in the carnival is a case of the crescendo type and each evening marks an increase in attendance and receipts over the preceding one. It is confidently anticipated that Saturday night's crowd will exceed any of those which preceded it, but the entertainment is measuring fully up to all expectations. The receipts too are satisfactory thus far and will likely exceed all expectations ere the week closes in a blaze of glory Saturday night.  
A noteworthy feature of the carnival is that it is promoted by honest people and the device provided for appeal to the caprices of those attending, and finally dancing always a popular feature of social life and entertainment in this city. With good music and the floor thronged with dancers, the scene is a spirited and attractive one.

**MINSTREL IS POSTPONED.**  
The minstrel show of the Mount Hermon school pupils which was scheduled to be given on next Friday night at that school has been postponed until Saturday night, March 5th, it was announced yesterday. The reason of the postponement is said to have been the fact that another nearby school also has an entertainment scheduled for Friday night and it was desired not to have the two programs on the same night.

**Hazards of North Pole Flight Lie In Making Landings**  
By HAAKON H. HAMMER  
Captain Roald Amundsen's Associate  
Written Expressly for Sea Service and The Bee.  
Flying 7,000 feet over the Arctic last summer I found a temperature of 36 to 42 degrees—above zero, not below it. The winds were light and shifting. Air pockets were an entirely unknown quantity. The atmospheric conditions in general were ideal for flying. So we are hopeful that the weather will favor us on our flight this summer, too.  
But it's the ground below us that will give us our chief concern. It was so last year.  
My Spitzbergen expedition to Amundsen's support, official known as the Hammer-Junkers Expedition, went to Spitzbergen last June. We were equipped with one all-metal Junker monoplane, which has a flying radius of 15 hours and were set to make flights right into the North Pole region to search for Amundsen. At the outset I had two machines at my disposal. But one was wrecked in the flight from Fimburg to Kristiania. The other plane was placed on board and transported directly for Spitzbergen, which is about 500 miles further north than the northern coast of Alaska and is far more accessible during the summer months, and leave it there in all kinds of a Polar flight. That's why we are using it this year.  
Before reaching our base we learned by wireless that Amundsen had been forced to abandon his flight on account of an accident to his plane. We were not required to fly for relief purposes. But we decided to proceed and make flights toward the north in order to investigate conditions for a later North Pole flight.  
**Take Off Trusting to Luck**  
We established our base at Green Harbor, Spitzbergen, at about 78 degrees north. There we found an excellent natural harbor where we were able to land the plane up on the beach. Except for some Arctic birds we saw weather, for it was of aluminum construction. This type of all-metal plane is the only one suitable for Arctic flight. It would be well impossible to carry along hangars required for wood-and-stuff machines.  
Our plane was equipped with metal pontoons, but we had with us both wheels in case of emergency. We found it desirable to change our landing gear. We soon discovered, however, that wheels were useless, as it was impossible to find sufficient bare ground on which to take off. The snow was so hard and compact underneath to stand the weight and pressure of a plane making a landing. So we had to use pontoons, take off from the water, and trust to luck—for we fully realized that if we were forced to make a landing on the ice, we would have to remain, wherever we came down.  
To meet the emergency we always carried personal ski equipment and provisions for 14 days on all flights. Spitzbergen translated into English means "pointed mountain." Never was a land more appropriately named. Pointed mountain tops reaching up over the snow and clouds were all that met our eyes. Many of the mountains looked like lead castles as needles.  
**Old Compass Found Useless**  
Once upon a time Spitzbergen is supposed to have been tropical. Its rich coal deposits are proof of this. The land is supposed to have belonged to the group of Japanese islands until volcanic eruptions, back in the ages, set it adrift. But it was difficult to realize this as we gazed down upon the mass of ice and snow from our plane thousands of feet up in the air. To determine the direction of travel, we were forced to use a compass. Several days ago, both remainder and polar bears were found on Spitzbergen, but they have all been killed off.  
As we traveled over the pack ice we were surprised to see great spans of open water "leads" or lakes over the ice. Just how rough the ice was, or how deep the water, we were unable to determine. But our observations fitted perfectly with Admiral Peary's reports from other parts of the Arctic ice pack that open water may be found over the ice in the summer even up to the 87th degree.  
We found great difficulty in navigating as the magnetic compass in these latitudes was useless. So for our trip this year we have devised a new compass.  
(Tomorrow, Hammer will describe the new compass, which makes trans-polar flight possible. This will be the first description of the new compass published anywhere.)

**Stuart**  
Stuart, Va. March 3.—L. G. Corbett, treasurer of the county, has been selected by the co-operative farm organizations of Patrick as their fertilizer and seed purchasing agent for the coming season.  
Green Joyce, of Liberty, died at St. Martin's Hospital here Sunday afternoon, of kidney trouble and complications. He was a brother of R. L. Joyce, prominent citizen of Stuart.  
The Stuart basketball girls defeated the Martinsville team here last Saturday night by 29 to 13. Stuart goes to Rocky Mount today to play the team there.  
Miss Charline Martin gave a delightful dance at her home last Saturday night in honor of the Martinsville basketball girls and their friends.  
Dr. G. T. Divers has just received and installed in St. Martin's Hospital an up-to-date X-ray machine, adding much to the completeness of his equipment.  
Rev. J. B. Batlin, Rev. and Mrs. J. B. Douglas and Miss Emily Kirkland were entertained at dinner Monday evening by Dr. and Mrs. G. T. Divers.  
Matt Handy, an old Confederate soldier, of the Meadows of Dan section of this county, died last Saturday night, in his 90th year.  
Donald Campbell, local representative of the New Bedford Life Insurance Company, who has been here for some time signing up options on right-of-way for a railroad to his company's property, left here this morning for Mount Airy, N. C. It is understood that all property owners twenty-nine in number, signed the right-of-way options except T. J. George, who controls the first eight hundred feet of the mile line, and it is said that Mr. George flatly refused to sign up.  
It is not known whether Mr. Campbell will return here from Mount Airy people are offering very attractive inducements for the running of the road out into the mountains from that city.  
The Ladies Aid Society of the Baptist church met at the home of Mrs. O. O. Blackman Tuesday afternoon, the vice-president, Mrs. R. Paul Sanford, presiding.  
A silver tea for St. Patrick's Day was decided upon, with Mesdames J. C. Joyce and J. B. Smith presiding at the punch bowl. After the transaction of other business and enjoying the delicious ice course followed by coffee and sandwiches, the society adjourned to meet next month with Mrs. W. C. Akers.

**OFFICERS CAPTURE CAR ON RIVER ROAD**  
Last night Sergeant J. H. Martin and Patrolmen O. W. Bates and O. F. Mayberry arrested two men who were driving a car on the River road, and Sam Price, on the River road. The two men were driving a Ford car and it was learned that all the motor and other numbers on the car had been changed or defaced. At first each of the men claimed the other was the owner of the car, then both owned it, but though they claim they got a bill of sale with the car it was not in evidence. The men were from Mason, N. C. The officers are holding the men until they can ascertain who the owner of the car really is and have the machine restored to him.  
—The condition of Frank Talbot who recently has been ill, has improved sufficiently for him to be about again. He expects to resume his work actively within the next day or two.

**MRS. BUSH TELLS OTHER WOMEN**  
How Pains in Side and Dragging Down Feelings Were Relieved by Lydia E. Pinkham's Vegetable Compound  
Massena, N. Y.—"I had terrible pains in both my sides and a dragging-down feeling that affected me so that I could hardly walk, and I got run-down. A friend who had taken Lydia E. Pinkham's Vegetable Compound advised me to try it and I have taken it with the best results. I do my housework and also some outdoor work on the farm. The Vegetable Compound has given me back my health and I can't praise it enough. I am perfectly willing that you should use these facts if my letter will help other women who still suffer." Mrs. DEBBIE BUSH, R. F. D. 1, Massena, N. Y.  
The spirit of helpfulness shown in the letters we are constantly publishing is worthy of notice.  
These women knew by experience what Lydia E. Pinkham's Vegetable Compound would do. Your troubles are the same as theirs. Isn't it reasonable to expect the same results?  
If you have pains and a dragging-down feeling and are nervous and irritable, profit by Mrs. Bush's experience and give the Compound a trial.

**Intensive Drive For Legionnaires**  
The Danville post, No. 10, American Legion, through its commander, W. H. Cousins and Adjutant T. A. Fox, Jr., has called a special meeting for 8 p. m. next Friday, March 7, at the Memorial Mansion with a view to enlisting the interest and activity of legionnaires and members of the auxiliary in the state-wide membership campaign on Tuesday, March 11.  
The plan for this membership drive involves certain definite work which is clearly outlined. Dr. W. O. Hankins, second vice-commander, has been appointed chief of staff for the period from March 10 to 11 inclusive, and T. R. Perkins has been selected as his adjutant. Every member of the post is urgently requested to prepare and mail immediately to Mr. Perkins a list of all eligible men the recipient would like to see in the Legion, and also all names of ladies eligible for membership in the Auxiliary. At Friday night's meeting Dr. Hankins will outline his plan of campaign, the meeting being primarily called for this purpose. The plan contemplates one day's work by each member, but it will mean work in such an intensive campaign.  
It is planned by state headquarters to prepare two lists—one of former members of the Legion, to be known as the A. W. O. L. list, and another of all ex-service members who are not members of the Legion, this to be known as the Ex-servicemen's list. The quartermaster is expected to arrange for a real, old-time army feed at 6 p. m. Friday known as "D Day". The letter sent out by the local post makes no specific mention of the "D. D. feed," but as "orders are orders" it is inferred that he is liable to court martial for failure to obey the instructions of John A. Cutchins, of Richmond, designated by the department commander to direct the attacking forces in this state for the offensive.  
Prizes are offered for the individual member who secures the largest number of members (old or new) in his post, and another money prize for securing the next largest membership.

**A Raw, Sore Throat**  
Eases Quickly When You Apply a Little Musterole  
And Musterole won't blister like the old-fashioned mustard plaster. Just spread it on with your fingers. It penetrates to the sore spot with a gentle tingle, loosens the congestion and draws out the soreness and pain.  
Musterole is a clean, white ointment made with oil of mustard. It is fine for quick relief from sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds on the chest. Keep it handy for instant use.  
To Mothers: Musterole is now made in milder form for babies and small children. Ask for Children's Musterole. 35c and 65c jars and tubes; hospital size, \$3.00.  
**MUSTEROLE**  
WILL NOT BLISTER  
Better than a mustard plaster

## HARRIS CASE IS EXPECTED TO GO TO THE JURY TODAY

(By The Associated Press.)  
NEW YORK, Mar. 4.—The suit of Beverly D. Harris, retired banker, for annulment of his marriage to Mrs. Eleanor Leanne Harris, is expected to be in the hands of the jury today. Counsel for the defense rested their case last night and with the reopening of court today both sides present their summations.

Allegations of Mr. Harris that his wife was once known as Samuella Lee, was a member of the Memphis underworld and before marriage lived as a mistress of Eli I. Harris, Memphis gambler, were denied yesterday by both Mrs. Harris and her older sister, Mrs. Rosalind Harris, wife of a Mississippi planter. Samuella, they said, was the name of a third sister.

## REBEL LEADER DISBANDS MEN

(Associated Press Leased Wire.)  
MEXICO CITY, March 4.—Enrique Estrada, and Manuel Diquez, foremost leader in the rebels' western military campaign, have disbanded their troops and are endeavoring with a small escort to reach the Pacific port of Acapulco, in the state of Guerrero, for the purpose of taking refuge in foreign territory, according to Guadalupe dispatches quoting information received at federal military headquarters.

Guadalupe dispatches report that General Estrada, delivering a farewell address before abandoning his followers in the mountainous region of Colima, state of Colima, admitted that the rebellion had failed and recommended that his troops return to their homes and abstain from pillage or banditry.

The War Department declares that organized resistance by the rebels in the Northern Vera Cruz petroleum region has ended. The announcement was based on the official report from General Luis Gutierrez in charge of the federal advance southward from Tampico.

The report, dated March 1, declared all the oil company's terminals had been occupied by federal forces from Barra Galindo to Puerto Lobos and Tamiahua, while a federal column was proceeding to Cerro Azul. No large organized bodies of rebels remained, it added.

## BENGALESE STUDENTS TURN FROM "NATIONAL" SCHOOLS

CALCUTTA, March 3.—Nearly half of the 55,000 students who had joined government and mission schools in Bengal during the strike of 1920 have now returned, according to figures printed in a government report on the progress of education in Bengal. The student strike was a result of political agitation, and was followed by the establishment of "national" schools by means of which the non-cooperators sought to boycott all government and government aided institutions.

"These schools are ill-housed," states the report, "badly equipped and indifferently staffed. Most of them lead a precarious existence and their financial statements, if they are ever made, would probably bear little inspection. Fees, not always paid, doles from Congress funds, occasional windfalls from non-cooperators, a varying amount realized from the sale of rice brought by pupils as a sort of payment in kind, these are the main items of income. There seems to be no uniformity of studies. The pupils attend or not as they please. Signs are not wanting that now that the first furore of enthusiasm has passed, these institutions have fallen into a state of stagnation, though their establishment has probably done more than could a good deal of counter-propaganda to convince the people of Bengal of the necessity of the non-cooperation movement in education."

## COMMITTEE COMPLETES WORK ON APPROPRIATION MEASURE

(By The Associated Press.)  
RICHMOND, Va., Mar. 4.—Work on the general appropriation bill was completed today by the Virginia Senate Finance Committee and the measure shows an increase of approximately \$35,000 over the figures adopted by the House.

When the bill left the House it carried a total of \$24,056,353.89 for the biennium. Chairman Garrett, of the Senate Finance Committee, stated that the changes covered salary items and restoration of original figures which had been reduced in the House. Among the latter are the Dairyman's Association's \$500, the Crop Protection

## HERE'S WHAT PEOPLE SAY ABOUT TANLAC

"If it had not been for Tanlac I would still be a sick, discouraged woman, for nothing else seemed to do me any good," says Mrs. Edward Gibbs.

All the advertising in the world and all the sales efforts combined could not have had the great success for TANLAC that has been attained, unless this reconstructive tonic possessed merit of the greatest degree. Over 40 Million Bottles of Tanlac have been sold and the demand today is greater than ever before.

That TANLAC possesses merit and has brought relief to hundreds of thousands of persons is attested by the great number of testimonials that have been received by the company from people in every State of the Union and every province of Canada. There are over 100,000 such testimonials on file with the company, all ringing with sincere praise for TANLAC and what it has accomplished.

Here are excerpts from a few of the 100,000 testimonials on file:  
"For 2 years indigestion deprived me of nearly all the pleasure of living. If it had not been for TANLAC, I would still be a sick, discouraged woman, for nothing else seemed to do me any good."  
"Following an operation my stomach and nerves seemed to give way and I became almost helpless. As a last resort I tried TANLAC. I began to improve from the very first, gained 25

## Doheny Tried To Get Walsh To Enter Deal

(Continued from page one)

coded by a book" in the Department of Justice.

"I obtained the book from Mr. Burns," added the witness.

"There were expressions in some of the McLean telegrams, the witness continued, which indicated that some messages in the series have not yet been introduced.

"Mrs. Duckstein testified that she was the wife of W. O. Duckstein, had been a special agent since December 1, 1923, of the Department of Justice and for the previous two years was private secretary to Mr. Burns.

"I didn't send the garbled telegram which is in the papers," she said. "There were words left out of that message which changed its meaning very much."

"Where you in possession of the bureau of investigation code," asked Senator Walsh.

"I was at that time. I never used it for myself, but I sent messages for Mr. Burns. This message was in an obsolete code of the message was shown to the witness.

"The message was in regard to Mr. McLean being made special agent," she said.

"Wait a minute," Senator Walsh put in, and he took her over the translation word by word.

"The interpretation is absolutely wrong," Mrs. Duckstein insisted when pressed the translation furnished the committee. It should have in it "inquiries being made regarding him being special agent of the department."

"That's what it meant," W. J. Gurris, chief of the bureau, said.

"Oh, yes," Mrs. Duckstein asserted. "Mr. Burns had told her a lawyer in the department was asking whether McLean was a special agent of the department."

"Mr. Burns said that these inquiries might make it possible for Mr. McLean to remain special agent," Mrs. Duckstein continued, "and that he might wish to resign."

"And you are telling your husband in telegram that Mr. Burns said that Mr. Burns thought Mr. McLean wanted to resign."

"Yes, that it might be embarrassing to the attorney general for him to be special agent."

Chairman Lenroot re-examined the witness as to codes. The present Department of Justice code, she said, she did not know, but the old code had been used as Mr. Burns said.

"I never gave my husband a code book," she said.

(By The Associated Press.)  
WASHINGTON, Mar. 4.—The Senate Oil Committee devoted another session today to the telegrams exchanged between Edward B. McLean, publisher of the Washington Post and his employees while he was in Florida in December and January.

A War Department code expert gave the committee translations of the cipher messages found among the telegrams, and Wm. J. Burns, chief of the Justice Department's investigation bureau, and Mrs. Mary Duckstein, an agent under him, were summoned to explain how a code once used by Justice Department representatives came to be employed in some of the McLean messages.

communications exchanged upon the Hogan proposals follow:

"Hon. E. L. Doheny,"

"10 Broadway, New York City."

"My Dear Mr. Doheny,"

"I am enclosing a letter received from Hon. T. S. Hogan, of Great Falls, Montana, once secretary of state and later a senator from Yellowstone county. Mr. Hogan enjoys the respect and confidence of our people. If you have not dismissed the idea of entering the Montana field, and I very sincerely hope you have not, the letter may be of some interest to you."

"Very truly yours,"

"J. T. WALSH."

"Hon. T. J. Walsh,"

"U. S. Senate,"

"Washington, D. C."

"Received your letter with enclosure from Mr. Hogan. If you or your brother are willing to take interest in his proposition, I would be pleased to have him come to Los Angeles at his convenience with maps and data. Merry Christmas from Mrs. Doheny and me to you and yours. We received a Christmas card from your daughter in the Philippines."

"E. L. DOHENY."

"December 24, 1923."

"Hon. E. L. Doheny,"

"Los Angeles, Calif."

"Dear Mr. Doheny:"

"Your telegram of the 21st was duly received. The suggestion you make is to me most alluring. After coming here, I closed out my interests in Montana ranch enterprises and have since been anxious to find an opportunity to put a portion of my meagre accumulations into some Montana business."

"I should further appreciate very much indeed the opportunity to be associated with you in some business enterprise. Were it not for the considerations to which I shall advert, I should gladly take a chance with you and Senator Hogan. I cannot do so, however, because of the expansion of the business of a corporation such as you would organize, it would almost of necessity acquire leases from the government and while I am in the official position I hold, it seems to me unwise for me to engage in such a business dependent in any appreciable degree on government favor."

"You may recall meeting with me, when we were in Los Angeles together during the winter of 1917-1918 Mr. Lewis Penwell some years thereafter purchased a sheep outfit on Santa Clemente Island together with a 25 years lease from the government on the place. He was eager for me to join in the purchase, we having been associated in a number of like enterprises in Montana. I was eager to do so and felt confident that the adventure would be a profitable one, as it has proven to be. I declined to go into it, however, because of the fact that the business had a government lease as its basis."

"This may be squeamishness on my part, but I prefer rather to be thought over sensitive than to be under suspicion of having utilized the position to which my people have elevated me for my own profit."

"John tells me that Mr. Cullinan, for whose companies he is general counsel, looks with disfavor upon any of their force becoming interested in companies related to that in which they are engaged."

"Present, please, my kind regards to Mrs. Doheny, to whom and to yourself I send the warmest greetings of the season, an agent under him, were summoned to explain how a code once used by Justice Department representatives came to be employed in some of the McLean messages."

"At the beginning of the session the cipher messages as decoded at the War Department" was presented W. F. Friedman, cipher expert of the army signal corps, as follows:

"January 18, 1924. 3:17 p. m."

"John F. Major, care Washington Post, Washington, D. C."

"This is a hypothetical question. John Doe has a check for \$10,000 on the back of the check was written endorsement as follows: 'John Doe for purchase of house. Does bank simply keep a record of or does it keep a record of explanation written on back of check.'"

(Signed.)

January 9, 1924.

"Edward McLean, Palm Beach, Florida."

"Very much thinks trend of investigation favorable to you. Not impressed with Walsh as cross examiner. Thinks you need coming interrogation. Zevely had conference with Lambert regarding your answers to questions which may arise, of which Lambert will advise you. Walsh leaves Seaboard tonight. Due Friday morning eight."

"W. O. D."

"January 9, 1924. 4:35 p. m."

"Edward McLean, Palm Beach, Florida."

"Walsh leaves Coast Line 12:25 tonight instead of Seaboard. Lambert on same train."

"W. O. D."

"January 11, 1924."

"Edward B. McLean, Palm Beach, Florida."

"Papers in your safe deposit box in the Commercial Bank have been handed according to Lambert's instructions."

"February 2, 1924."

"Mr. W. O. Duckstein, the Breakers, Palm Beach, Florida."

"Burns sent for me and told me communicate with McLean's inquiries into the Justice Department. Think this important information."

"Mary."

"January 30, 1924. 4:37 p. m."

"From Los Angeles, California."

"Edward L. Doheny."

"Pan-American Petroleum and Transport Company."

"620 Woodward Building, Washington, D. C."

"Compliment you on able presentation. Washington. Have heard many complimentary remarks and no unfavorable criticism. Cannot resist informing you my opinion that I (D) would be a mistake to offer back these and an act that could be followed by any stockholder."

"Am perfectly satisfied that when present hysteria over and if matter is weighed in any court proceedings that you will be thoroughly vindicated and the company cannot legally be made to suffer for the act any official has done unofficially. Everyone here would be pleased to help lift the burden from your shoulders. Hope that your realization of the equity the contract will give you aid and comfort at a time when politics seem to be the master."

"A. Y."

"The last of these telegrams was found among the code messages submitted by the Western Union and was submitted along with the McLean telegrams."

"J. W. Zevely is attorney for Harry F. Sinclair Wilton J. Lambert is attorney for E. B. McLean. W. O. Duckstein is a McLean employee and husband of Mary Duckstein. George R. Doherty is financial secretary of McLean."

Senator Walsh, Democrat, Montana announced that the committee had found in its search telegrams exchanged between himself and E. L. Doheny. Reports of the exchange "had been whispered about" the senator said "for the purpose of discrediting me." He consequently put into the record the entire correspondence. It related in part to a letter from T. S. Hogan, of Great Falls, Montana, asking the oil magnate to enter Montana oil production. The

had found but had not been put into the records.

MOLEAN WAS AGENT OF JUSTICE DEPARTMENT

(By The Associated Press.)

WASHINGTON, Mar. 4.—Mrs. Mary Duckstein, former secretary to Wm. J. Burns, confessed on the witness stand in the oil inquiry today that Edward B. McLean, publisher of the Washington Post, was a special agent of the Department of Justice.

She testified that some words had been omitted from the "Mary" telegram which changed the "entire meaning of it."

Shown the original copy of her telegram, Mrs. Duckstein said what she intended to convey in her message was that inquiries were being made "regarding McLean being a special agent of the Department of Justice."

WALSH REFUSED TO ENTER OIL DEALS

(By The Associated Press.)

WASHINGTON, Mar. 4.—Senator Walsh, Democrat, Montana, chief prosecutor in the oil inquiry, refused in December to enter into any oil transactions with E. L. Doheny.

It might be "squeamishness on my part," Senator Walsh told Doheny, but he could not appear to use his official position for profit.

Senator Walsh said, the purpose and the negotiation apparently was to hamper the work of the oil committee.

Telegrams put into the record of the oil committee today showed that after Walsh had forwarded to Doheny a suggestion from a constituent as to developing the Montana oil field, Doheny suggested that Walsh or his brother go to Los Angeles and consult about it.

Doheny based his suggestion on a proviso that the Montana senator, his brother was willing to "take interest in the proposition."

Senator Walsh replied that the suggestion was "most alluring," but said he could not accept because of leasing negotiations with the government would be necessary.

"While I am in the official I hold," said Senator Walsh's reply, it seems unwise for me to engage in any business dependent in any appreciable degree on government favor."

The correspondence took place before Doheny revealed that he loaned \$100,000 to A. E. Bull but for the Montana inquiry and for Senator Walsh and Doheny leases had been begun.

Reading the messages into the record, Senator Walsh said efforts had been made "to discover something that might be used to discredit or otherwise against me."

"That and would be served," he said, "if it could be whispered about that there had been an exchange of telegrams between Doheny and myself."

Grave Diggers Go On a Strike

ROME, Mar. 4.—A peculiar strike is taking place in Naples. The grave diggers refuse to work without a raise in salary and bettered conditions. The light hearted Neapolitans take the matter easily, wittily remarking the shortage of lodgings, much lamented, not only affects the living now, but also the dead. The authorities are seriously preoccupied with the difficulty of finding substitutes willing to take up the work.

PROPERTY TRANSFERS.

Deeds of bargain and sale recorded at the office of the clerk of the corporation court include the purchase by H. O. Kerns from H. R. Boswell of 150 feet on Claiborne street for \$2,300 and that of F. L. Jones from W. H. Kerns of 48 feet on Marshall Terrace for \$1,675.

## Yes, it does cost more to make VELVET Tobacco and for this reason—

It's the best Kentucky Burley tobacco money can buy and then it's aged in wood. All harshness and bitterness are removed. It's mild and mellow. You will readily notice the difference.

## MATTRESSES and SPRINGS

### Fresh for Morning Duties

Restful Sleep discourages those destructive elements that bring wrinkles of care to the face. Where the activities of the day expend energy. Rest builds up and replenishes the many depleted cells of the body.

Sleep is possible on an uncomfortable mattress, but, a night of complete relaxation and rest comes only on comfortable mattresses and springs.

Twenty two years of experience in building foundations for beds and an intensive study of the requirements for rest has placed KINGSDOWN Mattresses and Springs in homes, hospitals and hotels where comfort is the first consideration.

A patented adjustable hanger: a heavy steel center frame of wire to prevent wobbling; strong steel slats and frame of the finest material and construction; 36 double-deck extra fine spring steel coils; crossed helical top springs that allow free action of each coil, and a beautiful grey finish are some of the features of KINGSDOWN, "The Spring Supreme."

The KINGSDOWN Mattress is made of layers of fine, downy white cotton felt. These layers are scientifically placed to prevent lumping or sagging. They stay smooth and springy for life. It is covered with high grade ticking and finished with full imperial edges with handles on side.

You owe it to yourself, if you're not getting Restful Sleep, to buy KINGSDOWN TODAY.

We have them on Display. Come in.

**KLAN ENTERS MAINE POLITICS**  
(By The Associated Press.)

PORTLAND, Maine, March 3.—The Ku Klux Klan played a prominent part in two of eight city elections held in Maine today. In Saco where John C. Smith, an attorney, was elected mayor in a Republican sweep, defeating Mayor Walter J. Gilpatrick, Democrat, the successful candidate and his ticket had been endorsed by the Klan as "100 per cent American."

In Rockland Lieutenant Commander Carleton F. Snow, a Republican, who was elected, had the Klan endorsement.

**Use "Tiz" For Sore, Tired, Aching Feet**

Good-bye, sore feet, burning feet, swollen feet, sweaty feet, smelly feet, tired feet.

Good-bye, corns, callouses, bunions and raw spots. No more shoe tightness, no more limping with pain or drawing up your face in agony. "Tiz" is magical, acts right off. "Tiz" draws out all the poisonous exudations which puff up the feet. Use "Tiz" and forget your foot misery. Ah! how comfortable your feet feel. A few cents buy a box of "Tiz" now at any drug or department store. Don't suffer. Have good feet, glad feet, feet that never swell, never hurt, never get tired. A year's foot comfort guaranteed or money refunded—ad.

**STOMACH MISERY  
ACIDITY, GAS, GAS,  
INDIGESTION**

"Pape's Diapiesin" is the quickest, surest relief for indigestion, gas, flatulence, heartburn, sourness, fermentation or stomach distress caused by acidity. A few tablets give almost immediate stomach relief. Correct your stomach and digestion now for a few cents. Drugists sell millions of packages.

**SAYS AL SMITH WILL BE NOMINATED**

By ALEXANDER HERMAN

NEW YORK, Apr. 4.—As the scramble of the presidential possibilities grows keener, the face of Charles F. Murphy, leader of Tammany Hall, becomes more sphynx-like.

Political wise-ones who peer into it, turn away puzzled; aspirants who seek in it comfort, go away hopelessly. But those who know him well, don't try even to look. They know it is useless.

For it is this sphynx that has made Murphy a most powerful force in our political life.

During the past 20 years he—

Put five mayors in the New York City Hall.

Elected four governors, and unmade one.

Sent two senators to Washington.

Played a large part in nominating and electing a president.

And this year he hopes to put over another!

When asked who it will be, he merely replies:

"The convention will decide."

It is his set answer to all such queries. It has been so in campaigns past, it will be so this year, too.

But while he was having his picture taken to accompany this story he probably repeated again and again as he photographed asked him to move his lips.

"We'll nominate Al Smith and elect him, too. We'll make the governor president."

Wastes No Words.

"But I never talk," said Murphy smiling.

So it was from Dan Ryan, secretary of Tammany Hall, and right-hand man of its leader, that we got further sidelights on the man who rose from humble shipyard helper to political dictator.

Murphy was raised in the gas-house district of the East Side of New York City, where he learned the art of taking care of himself—and keeping his own counsel.

There were eight children in the family, and young Charlie, early in life had to drop school and go to work.

His first job was in a shipyard, where he worked as caulker, snyder and renter.

He became a mark for the joshers of the yard. But it wasn't for long. He fought them all and soon became recognized as their "Takes Athletics."

At the age of 17 he organized the Sylvan Social Club. It formed a baseball team. Murphy became its captain and catcher. Under his guidance the team defeated everything in sight. It then undertook a tour of the state, meeting the best amateur teams of the day and defeated them all.

As a result of this success the young captain received many offers to go into the professional baseball

CHARLES F. MURPHY LEADER OF TAMMANY HALL, AND STEPS IN HIS CAREER. LOWER SKETCHES SHOW HIM SUCCEEDING RICHARD CROKER, AND (RIGHT) WORKING ON HIS FARM OUT AT GOO GROUND, LONG ISLAND

But he turned them all down and became a street car conductor instead.

When he had saved \$500 he opened up a liquor store. It was a small place but one of the cleanest in town. Above it was a room where the Sylvan Club met.

The club grew. Murphy made money and friends. But his interest in athletics was still paramount. One day his club was to meet a rival organization captained by the Republican leader of the district in a four-oar boat race. At the last moment, the Sylvan's stroke became ill. Murphy stepped into his place without even changing his clothes and rowed his crew to victory.

It established him as a hero and a leader who could do things.

Gradually his power increased. He became leader of his district. He was generous to his friends charitable to the needy.

Wants No Office.

His club became affiliated with the Tammany organization. He became an assembly district leader.

Soon he dominated the other leaders and succeeded Richard Croker as head of the country's strongest political organization.

After 31 years, Murphy still holds sway as powerful as ever.

He craves no political office, having held only one in his time. But he thrives on keeping in the thick of things. He does that with austerity, hiding behind a poker face that now and then breaks out into a broad smile.

He smokes occasionally, but never drinks. He finds his chief pleasure out at Goo Ground, on Long Island, where he has a little farm with chickens, pigs, cows and a motor boat, the Galvant, that he likes to tinker with and run alone.

**MANY LEADERS SEEK HONDURAN CHAIR**

(By The Associated Press.)

WASHINGTON, March 3.—Widespread confusion in Honduras due to numerous revolutions in behalf of at least three leaders who aspire to the presidency was indicated today in advices received at the State Department from Consul George P. Waller at Tegucigalpa.

The American cruiser Denver, after being at Ceiba for several days because of a situation regarded as menacing to American life and property, however, has now been sent to Tela, which on Saturday was reported to be occupied by revolutionists headed by General Tosta.

The situation at Ceiba according to advices dated March 2, was "temporarily tranquil" while a new governor had been appointed and was said to be "doing his best to preserve order."

Nevertheless the military marines and sailors which were landed last week at Ceiba to guard the American consulate and protect American lives and property remain in that city. The Denver, it is understood, will return for them as soon as the situation at Tela permits.

**ADVANTAGES OF SOUTHERN MILLS**

(By The Associated Press.)

BOSTON, March 3.—Advantages enjoyed by the South in competition with Massachusetts in the manufacture of cotton goods are set forth in a report filed with the governor and executive council by the state commissioner of labor and industries, Brigadier Elioy Sweetser.

The report says the competition from Southern mills is becoming more severe and the increase in cotton goods manufactured in the South has been at a much more rapid rate than in Massachusetts, especially in coarse yarns and the medium grades of goods.

Some of the handicaps for Massachusetts mills mentioned are higher living costs, higher wages, greater power costs, longer hauls of raw materials and restrictive labor legislation.

**ONE DEAD IN AUTO WRECK**

(By The Associated Press.)

CHARLOTTE, N. C., Mar. 3.—John C. Bethea Jr., 24 years old, bank teller of Dillon, S. C., was fatally injured and R. M. Hamer, a planter of Hamer, S. C., seriously injured when an automobile driven by Hamer went over an embankment near here today. Bethea died while being brought to a hospital here.

**COAHUILA IS AGAIN OCCUPIED BY REBELS**

(By The Associated Press.)

FRONTERA, Tabasco, March 3.—(By Radio.)—Dollars News.—Invasions of all the coal districts of Coahuila was claimed in the official statement of activities of the revolutionary forces given out late yesterday. Cuatro Ciénegas, Coahuila, has been occupied a second time by the rebels and the city of Pánuco, Vera Cruz, in the oil district has been taken by the De La Huerta troops. Chihuahua, Vera Cruz also has been occupied. The revolutionists claimed control of all of Zacatecas except the capital and Durango and the cities of Lerdo and Gomez Palacio.

The situation on the "Isthmus," could not be more satisfactory, the statement continued. The federals are finding themselves harassed by the rebels. Attacks on trains carrying federal troops continue.

Two war vessels under the control of revolutionists are patrolling the coast of Vera Cruz and were reported to have reached Puerto Lobos.

**THREE DIE IN FIRE**

(By The Associated Press.)

WINNIPEG, March 3.—Mrs. William Lund, her daughter Mary, 20 years old, and the girl's fiancé, Donald MacKenzie, were burned to death in a fire of undetermined origin which destroyed the Lund home at Giroux, 35 miles from here today.

**COCOANUT OIL MAKES A SPLENDID SHAMPOO**

If you want to keep your hair in good condition, be careful what you wash it with.

Many soaps and prepared shampoos contain much free alkali. This dries the scalp, makes the hair brittle and is very harmful. Multifid coconut oil shampoo (which is pure and entirely greaseless) is much better than anything else you can use for shampooing, as this cannot possibly injure the hair.

Simply moisten your hair with water and rub it in. Two or three teaspoonfuls will make an abundance of rich, creamy lather, and cleanse the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excess oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy, wavy and easy to manage.

You can get Multifid coconut oil shampoo at any drug store. It is inexpensive, and a few ounces will last every one in the family for months—ad.

# Dan Dobb's Daily

VOL. 1—NO. 46. MARCH 4, 1924. PRICE: 1 CENT

## NOTHING BUT THE TRUTH

### MILLION REWARD

If Dan Dobb can sell Dan Dobb's Daily for \$1,000,000 he will give this amount, two hundred dogs in good shape, one filver in a funny shape, and one shirt on his back in bad shape as a reward to any person (male or female) finding Tom Strams, J. Dobb

### SPORTS

A Los Angeles surgeon reports a goat shortage and he doesn't mean prairie. What good are goat glands? We don't know. Maybe they are transplanted to football players, or people who butt in.

### AUTO NEWS

Emporia, Kas., has voted to let autos take the place of street cars. This is the correct way to go about the matter. Too many autos deliberately try to knock street cars out of their way.

### PITIFUL NEWS

If someone had given us an advertisement you would be reading it instead of this paragraph. That proves advertising pays.

### BANK NOTES

Parkersburg (W. Va.) thugs got away with \$1400 all in dollar bills, so can join a Christmas savings club now.

### CORRECT NEWS

A man who feels sorry for himself should feel sorry for himself.

### EDITORIAL

They dug up King Tut in Egypt; in Mongolia, they dug up some dinosaurs; the Irish have dug up a body 3000 years old, and now a tomb 4500 years old has been found in Syria. But where on earth will we dig up the price of a spring suit?

### PHONE NEWS

There were only four telephones in Chicago 47 years ago, now there are 700,000. The things spread worse than ants in the sugar or weeds in a garden and nothing can stop the evil.

PITTSBURGH, March 3.—The Broadway-Washington Limited, a crack extra-fast train on the Pennsylvania lines, was derailed four miles west of here early this morning. No one was killed, railroad officials said, and none has been reported injured.

## TROUBLED WITH ITCHY ECZEMA

Face Rough and Scaly. Cuticura Healed.

"I was troubled with eczema on my face. My face would get rough and scaly and then it would itch. At night I would scratch it in my sleep and then it would break out in pimples that were sore and red all the time. I used several remedies without relief."

"I began using Cuticura Soap and Ointment and the itching soon passed away, and after using two boxes of Cuticura I was healed." (Signed) Mrs. R. Ricks, Waverly, Alabama.

Use Cuticura Soap, Ointment and Talcum for all toilet purposes. Sample Free by Mail. Address: "Cuticura Laboratories," Dept. B, Station 41, New York, N. Y. Send 10c for sample. Try our new Shaving Stick.

### A Good Thing—DON'T MISS IT.

Send your name and address plainly written together with 5 cents (and this slip) to Chamberlain Medicine Co., Des Moines, Iowa, and receive in return a trial package containing Chamberlain's Cough Remedy for coughs, colds, croup, bronchitis, "flu" and whooping cough, and itching, throat, Chamberlain's Stomach and Liver Tablets for stomach trouble, indigestion, gassy pains that crowd the heart, biliousness and constipation, Chamberlain's Salve, needed in every family for burns, scalds, wounds, piles, and skin affections; these valued family medicines for only 5 cents. Don't miss it.

## BIG INCREASED EARNINGS COMMON

(By The Associated Press.) NEW YORK, March 3.—Increased earnings by several industrial and utility companies during 1923 were shown in annual statements today, notably American Telephone and Telegraph Company which reported net income of \$81,022,181, more than \$15,000,000 over the previous year. This was equal to \$11.35 a share on the average outstanding capital stock compared with \$11.14 in 1922.

Corn Products Refining Company earned net income of \$10,471,559 as against \$10,416,872 the year before and wrote off \$10,000,000 good will which is in line with the policy of conservatism adopted by E. T. Bedford, president. Last year \$20,000,000 was written off.

United Light and Railways Company, in a preliminary report, showed net income of \$2,190,631 after charges and taxes but before depreciation, as compared with \$1,919,304 in 1922.

Savage Arms Company reported a profit of \$404,044 after depreciation and taxes, against a deficit of \$168,168 the year previous.

Net income of Pacific Gas and Electric Company was \$16,478,439 with a balance of \$3,652,448 available for common stock dividends. The company earned \$10.25 a share in 1923 on its outstanding common stock.

COLLEGIAN SIGNS WITH ORIOLES (By the Associated Press.) BALTIMORE, March 3.—John H. Flavin, a Georgetown University baseball and football star, has signed a contract to play with the Baltimore Internationals. Manager Jack Dunn announced today Flavin is a third baseman.

## HE'S A HERO!

Lucky for Lieut. Tommy Ryan, U. S. N., that he was in Tokyo during the September earthquake. His presence in the stricken city gave him a chance to show a little of the stuff of which heroes are made. And he did. Uncle Sam has just awarded him a congressional medal.

## Overnight Features

By The Associated Press

National Assembly at Angora passed bill calling for the deposition of the Caliph and abolition of the Caliphate.

David Belasco, veteran theatrical producer, announces he will no longer accept principles of the "closed shop" in the theater and will terminate his road productions and close his New York theater.

Treasury Department actuals estimate tax bill, passed by House, will produce \$440,000,000 less revenue than the present law and \$113,000,000 more than the proposed Garner Democratic plan.

President Coolidge selects Samuel Knight, San Francisco attorney, as special counsel to determine validity of title of Standard Oil Company to holdings in the Elk Hills naval oil reserves in California.

The case against Mrs. Asa G. Candler, Sr., wife of the wealthy Atlanta soft drink manufacturer, and W. J. Stoddard and G. W. Keeling, Atlanta business men, charged with frequenting an apartment where a small quantity of liquor was found, is dismissed.

Program of Senate Oil Committee

calls for presentation Tuesday for official translation of the McLean code telegram and for the hearing of W. J. Burns, chief of the bureau of investigation of the Department of Justice and others mentioned in the exchange of telegrams.

Treasury Department announces in report to Ways and Means Committee that refund of tax payments totaling \$123,992,320.94 were made during past fiscal year.

Representatives of steamship lines at New York declare they will oppose order of Commissioner of Immigration Curran that all aliens arriving second

class must pass through Ellis Island and say enforcement of order will divert this passenger trade to Canadian ports.

## DIAMOND BROTHERS

NEW YORK, March 3.—Supreme Court Justice Cropper today sentenced Morris and Joseph Diamond brothers; John Farina and Anthony Fantano, bank messenger murderers, to die in the electric chair in Sing Sing during the week of April 7. The four recently were convicted at separate trials of the murder of two bank couriers and robbing them of \$43,000 last November, 14.

## Kellogg's Bran did more in two weeks than medicine taken in 20 years

Out of regard for your own health, read this letter:

Gentlemen: Your "Krumbled Bran," used by me as a cereal, has done more for me in two weeks than the hundreds of dollars' worth of medicine I have taken in last twenty years for constipation. It is wonderful, and it is so simple.

Yours truly, Arlington H. Carman, Patchogue, N. Y.

Mr. Carman's experience has been duplicated in thousands of homes. Why does Kellogg's Bran succeed when drugs and pills fail? The answer is simple. Drugs have an unnatural effect upon the bowels. They irritate the intestines. The more they are used, the more one has to use. Finally, they have no effect at all.

Kellogg's Bran STIMULATES the

intestines. It cleans, sweeps and purifies them. It acts exactly as nature acts. And it is never necessary to increase the amount eaten. If eaten regularly, Kellogg's Bran is guaranteed to bring permanent relief to the most chronic cases of constipation, or your grocer returns your money. For Kellogg's Bran is ALL bran. Nothing but ALL bran can be so effective. That is why doctors recommend Kellogg's.

The wonderful, nut-like flavor of Kellogg's Bran is exclusive. It is delicious—totally unlike ordinary bran. Eat two tablespoonfuls daily—in chronic cases, with every meal. Eat it with milk or cream and in the recipes on every package. Kellogg's Bran, cooked and krumbled, is made in Battle Creek. Sold by all grocers.

Miller & Rhoads

## Coming to Miller & Rhoads now is like coming into spring

SOME there are who look for spring with the first chirping robin; some see it in the pink-blossoming peach trees, and some there are who stick to the calendar. But our friends tell us that the first signs of spring are found right here in Miller & Rhoads Store!

One glance through the store and you feel the caress of spring like a gentle breeze. New styles, new materials, new merchandise—every aisle in the store breathes the air of spring. Store, salespeople and shoppers, too, say that winter is gone. Summer can't be far away.

A trip through the store will give you a summary of the newest in styles. For Miller & Rhoads are always *Fashion-First* and *Fashion-Right*.

Spring reveals its sweetest work in the women's apparel and millinery sections on the second floor. It is much like a fashion fairyland.

Spring, too, has laid its fairy fingers on dress goods and silks. In design, color and weave, they are prettier than ever. Plaids, foulards and printed crepes seem to outrange human fancy. There is no end to the gay novelties for your choosing.

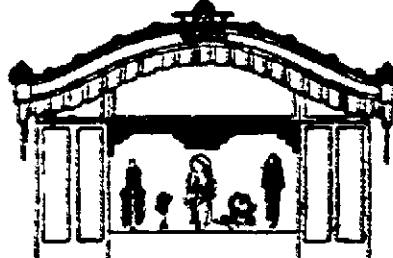

The drapery department is glorious with its new stocks of cretonnes—fresh and summery looking. The home-furnishing departments are already showing everything from wicker furniture to canning outfits!

This is the first spring in our new store. How different from a year ago! If you have not yet visited the new store, you will appreciate the changes. There is more room to shop, everything is located so conveniently and now there are six elevators, centrally located, to whisk you to the upper floors. There isn't a more delightful time of year to visit Miller & Rhoads. And when you do come, don't forget to visit the tea-rooms on the fifth floor! There you will find rest and refreshment at reasonable cost.

If you can't get what you want in your own locality, try

# Miller & Rhoads

## RICHMOND, VA.

### Some signs of spring you will find at Miller & Rhoads

TAILORED SUITS: stronger in fashion than for years! Tweed or dark twill; many in mannish "hair-line" cloths. Boyish types.

HAND-DRAWN LINEN PROCKES: in white and all the high colors.

FLANNEL PROCKES: in high colors, or in smartly checked or striped effects on gray and tan.

MONOGRAMS: which are everywhere on scarfs, frocks, ties, blouses, sweaters—even hats!

FOR ORNAMENTS: glowing little decorations to pin in the pockets of tailored suits—on popular as white gardenias on lapels!

SHORTER SKIRTS: several inches above last year's!

FOX SCARFS: again for spring, smartest of far neckpieces.

You have never seen the cloths in so many attractive variations. You will find them in the millinery section and in the French Room in endless variety of color, shape and material.

However,  
—comma—

By JAMES W. DEAN

NEW YORK, March 4.—The pace of our national life has slackened. The songs we sing indicate that. The war had its popular songs with its marching tempo. Then came a lot of jerky, convulsive tunes that reflected the state of our feelings. Then a lot of stuff of frothy, nonsensical twists to words and music, such as "Yes, We Have No Bananas" and "Barney Google."

I have just come from the annual frolic of the songwriters, where songs well played and sung for the first time. There is a decided change in sentiment in the songs which will sway multitudes the coming year. We are returning to the old ballads. The most musical of all the selections at the frolic was Irving Berlin's "What'll I Do?" The sentiment of the thing has to do with the fortunes of one who is faced with the loss of a loved one.

Berlin also has a new one called "Lazzy." It seems to have been inspired by a hound dog puppy asleep in the sun. Weirich, who has written as many song hits as the next one, contributed "Lindy Lady" to the program. The air and sentiment is based on the old "Lindy, Lindy, Sweet as Sugar Cane" refrain which every college quonzo sings.

Al Jolson's latest are by Abner Silver. They are "California, Here I Come" and "I'm Going South." They follow the usual construction of Jolson songs and seem to have been written especially for his interpretation.

Berlin sang his own songs. He has a very thin voice which occasionally breaks on a high note. However, he sang with a certain vitality which was due to the fact that they were his own songs and that they probably reflect much of his own feelings.

#### MURDER TRIAL THIS WEEK

(By the Associated Press.)  
PETERSBURG, Va., Mar. 3.—Justice of the Peace Court today started the coroner's inquest into the killing of Leo Schiff, alias Joe Turner about twenty six years old, of Richmond, who will probably be held in Dinwiddie Wednesday or Thursday night. Cora Liverman, charged with the murder, was removed from the Petersburg jail to Dinwiddie courthouse in company with H. G. "Slim" Jackson, charged with felonious assault. J. L. Nimmo and Joe Canelli also were held for police examination. All participants in the tragedy are said to be well known to the Petersburg police.

#### Glycerine Mixture for Gas On Stomach

Simple glycerine, buckthorn bark, etc. as mixed in Adlerika, helps any case gas on the stomach in TEN minutes. Most medicines act only on lower bowel but Adlerika acts on BOTH upper and lower bowel and removes all gases and poisons. Brings out matter you never thought was in your system. Excellent for obstinate constipation. Guards against appendix. J. C. McFall's Drug Store, 108 N. Union St.—adv.

#### If You Need a Medicine You Should Have the Best

Have you ever stopped to reason why it is that so many products are extensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfill the promises of the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself as like an endless chain system the remedy is recommended by those who have been benefited, to those who are in need of it.

A prominent druggist says "Take for example Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend, for in almost every case it shows excellent results, as many of my customers testify. No other kidney remedy has so large a sale."

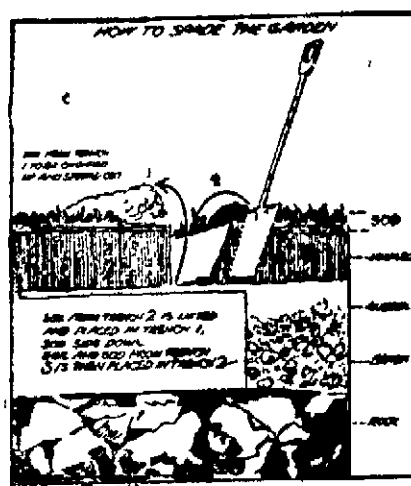

According to sworn statements and verified testimony of thousands who have used the preparation, the success of Dr. Kilmer's Swamp-Root is due to the fact, so many people claim, that it fulfills almost every wish in overcoming kidney, liver and bladder ailments, corrects urinary troubles and neutralizes the uric acid which causes rheumatism.

You may receive a sample bottle of Swamp-Root by Parcel Post. Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents; also mention this paper. Large and medium size bottles for sale at all drug stores.

## YOUR GARDEN

ARTICLE NO. 1.

### GARDEN PLANS

CORRECT WAY TO SPADE (LEFT) AND A GARDEN PLAN.

Gardening is lots of fun. Likewise, it's both recreative and profitable.

Why not have a garden yourself this year?

That little bit of background is just the thing for one Get out and make it pay its keep.

Even if you live in an apartment house, a garden is still possible.

Join in with neighbors and rent a nearby vacant lot for the purpose.

The unused portion owners generally agreeable to such a plan.

The unused portion of a city lot usually averages about one-fifth of an acre.

During the war, gardens planted on plots that size were made to yield \$100 in vegetable produce.

Divide that sum by 12 and you will at once see how a garden can cut down on the annual allowance for rent.

Don't locate your garden, though on land which the sun can shine on at least five hours each day.

Don't plan one where the original hard ground has been buried under cinders, rocks and other debris.

Test the soil for fertility first. You can do this very easily by putting a small amount in a cup and mixing it

to the consistency of thick cream. Into this solution place a small strip of litmus paper (blue) which can be had at most any drugstore.

If, after two hours, any part of the immersed litmus turns red, your garden needs lime.

To provide this scatter a coat of the hydrated or air-slaked variety over your ground after it has been turned.

One application a year is sufficient. But do not mix the lime with commercial fertilizer as the lime releases the needed nitrogen.

Always apply lime to the surface only. Never turn it under. And don't apply it to land intended for Irish potatoes as it has a tendency to rot the tubers with scab.

It is always best to plan the garden beforehand on paper. In this way you can allot different spaces to each crop.

The rows should run north and south if possible. But it is more important that they run the long way of the garden.

Arrange the plan so that tall-growing plants will not overshadow the small ones.

TOMORROW: Preparing the soil.

#### DRINKING AT HOTEL DANCES TO BE ENDED

(By the Associated Press.)

Philadelphia, March 3.—Police surveillance of hotel dances will be strictly applied, beginning tomorrow night with the Bal Masque, one of the gayest events of Philadelphia's social season. Director of Public Safety Butler said tonight.

A committee of socially prominent men has charge of the arrangements and the patrons include many social leaders.

"We are not making any drive against the Bal Masque," said Director Butler, "but we are beginning a program which I intend to carry out at all functions. I am determined that balls and dances in hotels shall be as free from drinking as the ones held in public dancing rooms."

Tomorrow night I will have men stationed outside the hotel and should any one attempt to enter while under the influence of liquor or come out in that condition they will be arrested.

"Flask toting" will not be tolerated. I have to resort to drastic methods and if necessary I will have my plain clothesmen attend the ball in costume and arrest any one detected carrying liquor.

"I don't give a whoop whether a man is a millionaire or a nickel. I'm going to get them all, high and low."

Director Butler said that the committee in charge of the Bal Masque had been notified of his plans and that its members had promised him they would co-operate in every way.

CONFEDERATE VETERAN DIES

W. T. Morton died yesterday at his home at Clover after a brief illness. Mr. Morton would have been 88 years old had he lived until his birthday in May. He served in the Civil war in 53rd Virginia infantry and took part in practically all of the battles of the struggle. At one time he was in the tobacco business at Clover.

Mr. Morton is survived by two sons, W. Morton, Jr., of Petersburg, and E. H. Morton, of Clover, and one daughter, Mrs. H. D. Plummer, also of Petersburg. Mrs. Betty Watkins, a sister, also survives.

The funeral will be at South Boston today.

#### AN INVENTOR CAN CONTROL AIR WAVES

BY PAUL WILLIAMS

(By Chicago Tribune Service.)

LONDON, March 3.—Signor Guglielmo Marconi has succeeded in harnessing the waves set in motion by radio energy.

The inventor of wireless communication after two years of research can concentrate and direct these electrical waves as light is controlled and directed in a searchlight.

With certain new controls at the sending station, Signor Marconi can direct his message towards a specific country and none other can listen in. So far he has not been able to confine the waves so they can be confined by one station but he is confident that he will achieve this.

His discovery, he believes, will give greater speed in transmission and more secrecy with less expensive stations at smaller cost.

Signor Marconi's announcement follows the government's report on imperial wireless communications which if adopted means the restriction of private enterprise.

Signor Marconi recognizes that there may be fearful possibilities in his new control of waves. He admits that no one knows what would happen if excessively high power were put behind one of these radio beams and directed at a powder magazine. He hopes eventually to confine these beams to a radius of a few hundred yards at their destination. He refuses to speculate upon the results of a beam with 1,000 kilowatts behind it aimed at something explosive 2,000 miles distant.

MEANS TRIAL POSTPONED

(By the Associated Press.)

NEW YORK, Mar. 3.—Trial of Gaston B. Means, former Department of Justice agent, on an indictment charging bribery and violation of the prohibition law, was again postponed in federal court today to enable the government to determine Means physical condition.

STILL LIVES!

Arthur A. Medenka, Oakland (Cal.) newspaper man, faced a firing squad six times. But just as the riflemen were getting a good aim, his life each time was spared by a miracle. That was in Russia, though. No wonder Medenka is glad to be back in the U. S. A.

## CARRIER PIGEON USED TO LEVY BLACK MAIL, ALSO IN OTHER CRIMINAL WORK

(By ROBERT T. SMALL,  
Copyright, 1924, by The Bee)  
NEW YORK, Mar. 3.—It sounded  
all the time more like a mid-summer  
fantasy than a mid-winter reality,  
but just the same credulous New  
York took seriously for a day or two  
the story that a carrier pigeon was  
being used to levy black mail. A \$10,  
000 bill, or perhaps some greenback  
of smaller dimensions was to be tied  
to the pigeon's leg and the bird lib-  
erated.

The feathered messenger was then  
supposed to fly back to the cave of  
the criminals.

The story took on a particularly  
spicy flavor when it was reported  
that the police had arranged to be  
on hand when the bird was let loose  
and two burly blue coats were to  
shadow the pigeon in air planes. Just  
how they would follow the little flier  
into the maze of east side tenements  
—all black mailers have to live on  
the east side here in New York—  
no one at police headquarters seemed  
to know. But New York has police  
airplanes and police fliers, and  
hasn't yet found what to do with  
them. So the idea of flying after  
the blackmailing "homer" was ap-  
pealing to the imagination of the  
cops.

Now the black mailing plot has  
faded away. It was novel while it  
lasted and had a touch of possibility  
to it. It was pointed out that it was  
comparatively an easy matter to de-  
liver a live pigeon at a victim's door.  
Children have been left upon door-  
steps so why not a squab? It was  
a hollow tree or under a brick in  
the back yard. Perhaps some day  
the blackmailers will take it up. As  
a rule, however, they haven't much  
imagination.

It is not the first time, however,  
that attempts have been made to use  
carrier pigeons for criminal purposes.  
Some of these attempts have been  
successful. Others have been merely  
fantastic. There is no doubt that the  
birds have been used for bringing  
opium, cocaine, and other drugs  
ashore from ships. The birds easily  
carry a cylinder containing valuable  
quantities of the forbidden powders.  
The smugglers take the birds out to  
ships in the lower bay and when they  
are liberated they return with fidelity  
to the natal cote. There have been  
stories of the birds being used to  
smuggle precious stones ashore, but  
no authentication of the fact. The  
drug carrying pigeons have been re-  
cognized by the police of many cit-  
ies.

## NOT TO INVESTIGATE FINDINGS AGAINST FORBES BUT WILL PROBE CHARGES AGAINST CONGRESSMEN

(By The Associated Press)  
WASHINGTON, Mar. 4.—No in-  
vestigation of the findings of the  
Chicago grand jury which indicted  
C. P. Forbes and J. W. Thompson  
will be made by the special Senate  
Veterans Committee. It was an-  
nounced today by Senator Reed,  
chairman of that committee.

Senator Reed declared that the in-  
formation furnished the committee  
concerning two members of the  
House of Representatives showed that  
it was not a matter for investigation  
but for prompt prosecution.

Recently it was reported that an  
East side drugist here in New York  
had bought a whole fleet or flock of  
smuggler birds and had arranged a  
system or signal lights which con-  
veyed the news to victims that a new  
supply of various sorts of narcotics  
had come in by wing.

Occasionally the police come out  
with a plan either to exterminate or  
to license the carrier birds. It has  
suggested that the breeding he re-  
stricted and supervised. Yet carrier  
pigeons acting as one of the oldest  
of sports and the breeding and training  
of the birds has furnished much in-  
nocent amusement and excitement to  
the boys of the country.

Friends of the pigeon are warm in  
their defense of the birds. They say  
that pigeon racing is far better than  
the brutal sport of shooting live pi-  
geons and even if a few of the carriers  
are turned into criminal channels,  
it is argued that the per centage is  
no higher than that of human beings  
who turn voluntarily from the paths  
of rectitude into the byways of crime.  
The birds are made criminals only  
through an advantage being taken  
of their finest instinct.

They are monogamists, these feath-  
ered messengers, and are said to be  
more faithful in their matings than  
the average human. Their love of  
home is such that they will take de-  
perate chances to reach it. Their un-  
happiness when away from home is  
evident.

The charge of narcotic bootlegging  
against the carriers will not drive  
them from the air.

## HOMES ARE NO LONGER SAFE

(By Chicago Tribune Service)  
NEW YORK, March 3.—Homes no  
longer are safe places to stay, accord-  
ing to figures made public today by  
the Metropolitan Life Insurance Com-  
pany. From a study of fatal acci-  
dents among 14,000,000 industrial  
policy holders, it is shown out of  
every fifty-eight accidental deaths,  
nine take place in homes.

For persons between fifteen and  
twenty-four, home is a fairly safe  
place but ten out of every 100,000  
children less than fifteen died in  
domestic accidents. Among persons  
more than fifty-five the rate is nine-  
teen per 100,000, and for those more  
than sixty-five the rate is sixty-two.

A member of the special Senate  
Committee stated after a conference  
with John W. H. Crim, government  
counsel in the case, that it was the  
understanding of the committee that  
Mr. Crim would give to the president  
the names of the two congressmen  
involved in the charges made by the  
Chicago grand jury.

Although deciding not to investi-  
gate the charges involved in the grand  
jury report the committee urged up-  
on Mr. Crim the prosecution of al-  
leged irregularities in the Perryville  
hospital case.

## Good Morning Judge!

A record of the proceedings of the  
police court shows that the following  
cases were disposed of this morning:  
J. H. Nancetta, violate traffic ordi-  
nance, continued. Tony James, statu-  
tory charge, fined \$21 and costs; J. B.  
Rice, improper license, dismissed;  
Barrett Slade, colored, improper  
brakes, not present; Harry Shaw,  
vagrant, dismissed; Sam Price, im-  
proper brakes, continued; Tom Ram-  
sey, improper license tag, continued;  
Will Scott, colored, assault, fined \$11  
and costs; Lula Dodson, create a dis-  
turbance, fined \$6 and costs, Minnie  
Peeler, statutory charge, fined \$21  
and costs.

## Coolidge Re-States Adherence to the Mellon Tax Plan

(By Associated Press)  
WASHINGTON, Mar. 4.—Adher-  
ence to the principals and provisions  
of Mellon tax plan was reaffirmed  
today by President Coolidge.

Mr. Coolidge's position relative to  
tax legislation remains exactly as out-  
lined in his message to Congress, de-  
claring for the Mellon plan. This  
was made clear at the White House  
in answer to inquiries about the com-  
promise bill passed by the House.

## Favorable Report On Horsley Bill

(By The Associated Press)  
RICHMOND, March 4.—The Hor-  
sley House bill, creating a special  
commission to make a survey of Vir-  
ginia's waterpower and agricultural  
resources, was given a favorable re-  
port by the Senate Finance Commit-  
tee today.

The survey is desired for the pur-  
pose of improving the resources and  
attracting more manufacturing con-  
cerns to the State.

The Senate Committee on Insur-  
ance and Banking rejected the  
Fletcher Small Loan Act bill, passed  
by the House.

## MCADOO'S SON TESTIFIES

(By The Associated Press)  
WASHINGTON, Mar. 4.—Francis  
H. McAdoo, son of Wm. G. McAdoo,  
was called to the witness stand today  
by the oil committee. McAdoo said  
that in 1919 the firm of which he and  
his father were members, was re-  
tained by E. B. McLean in relation  
to the will of the publisher's father,  
John R. McLean.

McAdoo said McLean had wired  
him the A. Mitchell Palmer, attorney  
in the Wilson administration, repre-  
sented A. B. Fall and Harry F. Sin-  
clair.

This was why the publisher wanted  
him to approve the statement Palmer  
prepared for the committee last De-  
cember.

McAdoo agreed to produce the tele-  
gram sent to him by McLean with re-  
spect to Palmer, but he declined to  
furnish others saying they were con-  
fidential as between lawyer and  
client.

The witness denied the statement  
in one of McLeans telegrams that he  
or his father had been counsel for the  
publisher "for seven years."

THE FASTEST RETAILING SYSTEM IN THE SOUTH

## N. C. AND ALABAMA TO MEET IN FINALS TONIGHT

(By The Associated Press.)  
ATLANTA, Ga., Mar. 4.—North Carolina and Alabama will meet tonight in the finals of the fourth annual basketball tournament of the Southern Inter-collegiate Conference, after topping off their string of tournament victories by decisively outplaying their opponents in the semi-finals last night. Carolina defeated Mississippi A. and M. which was defending the title won last year, by a score of 23 to 20, and Alabama eliminated Georgia 37 to 20.

The Tar Heels will be the first team to hold the conference title twice if they are able tonight to add this year's championship to that which they won in 1922. Alabama has never before reached the finals, although a contender in each of the past tournaments.

## Ben Powell and the Oil Enquiry

(Special to The Bee.)  
GRETNNA, Va., Mar. 4.—Ben R. Powell who several months ago gave out the text of letters from Bascom Slomms to connection with federal patronage matters and which caused a mild sensation in Washington, is about to be drawn into the oil investigation. Mr. Powell was asked to furnish information bearing on the leasing of the naval reserve. In reply he stated that he had no definite knowledge of anything amiss in the scandal but that he had in his possession letters the custody of which he has been asked to yield by a Congressman who he declines to name. Mr. Powell declined to discuss the tenor of these letters nor the signer of one missive in particular which, he said, he has been pressed to yield in order that it might be read into the record of the investigation. Mr. Powell said that from what he could gather of the requests made of him the effort would be to involve the president's secretary and the alleged infidelity of the White House into party affairs.

Mr. Powell says he is going back to Washington within ten days at which time he says he will give out the letters which have been requested of him. He further stated that his recent trip to Washington was in connection with the oil matter.

## SINK BIG COFFERDAM

VALLEJO, Cal., Mar. 4.—The largest cofferdam ever built in America has been sunk as the first step in the under-water construction of the \$4,000,000 Carquinez Straits bridge from Vallejo to Calaca. The structure is as large in cubic measurements as a five-story building.

## MRS. M. SANDRIDGE

## The Appealing Charm of Health

Richmond, Va.—"I can always speak well of Dr. Pierce's Favorite Prescription as a special tonic and nerve builder whenever I have been in a run down or nervous condition. It has never failed to strengthen and build me up well and strong in a comparatively short time. I would recommend this 'Prescription' to every woman who is ailing or nervous for it is the very best remedy for womanly ailments that I have ever known."—Mrs. M. Sandridge, 203 S. Harrison St.

## Rheumatism

Rheuma, the marvelous rheumatism remedy, sold and guaranteed by Patterson Drug Co., acts quickly, safely, surely. It antagonizes and drives from the system the poisons that cause stiffness and pain in the joints and muscles.—adv.

## NEW MEDICINE ENDS GAS ON THE STOMACH

## Dawson's Gas-Tone Ends That Choking and Fullness After a Hearty Meal

Have you ever felt uncomfortable because of something you have eaten? Some times it is a choking feeling, other times it is a dangerous pressure against your heart, and others just an uncomfortable feeling which might cause you to remark—"If I could only get that gas up." Your lasting and permanent remedy is in Gas-Tone, and is sold on money back guarantee if you are not satisfied. It is just what the name implies, a medicine without harmful effects in the least, that will relieve you of dangerous cases on the stomach. It acts quickly and puts an end to the difficult breathing, smothered bloated feeling which is so uncomfortable. Keep a bottle in your home, or in your grin and you will find it is a boon to any person who might suffer from indigestion or accompanying discomforts, while the medicine taken regularly after meals will permanently restore the secretive juices to necessary for proper food nutrition. Your stomach upset, pretty nearly works your system's entire undoing and as the result you are easily susceptible to other diseases. Keep your food digested and your body in trim and many other ills will not attack you.

Cut this notice, but do not be misled by anything "just as good," but demand Gas-Tone. Take according to directions and if for any reasons you are not satisfied bring it back and get your money back. Gas-Tone is sold at a dollar a bottle at Jones & Groves, Danville, Va.—adv.

## ONE SACRIFICED TO "BLACK GOD;" THE OTHER SAVED

Arrest of Frank McDowell, 19, St. Petersburg, Fla., possibly saved the life of Mary Birdsey, Fordyce (Ga.) school girl, whom he had marked for death. McDowell told police her sacrifice would have atoned for a childhood sin.

McDowell confessed he killed his two sisters and his parents. Here is the best picture of his sad life, 19, whom he killed a year ago.

## Martinsville Tobacco Plant Is Wiped Out

(Special to The Bee.)  
MARTINSVILLE, Va., Mar. 4.—The large four-story brick factory on Fayette street, occupied by the Henry County Tobacco Company and owned by Will Childress, was totally destroyed by fire of undetermined origin last night shortly after nine o'clock. The dry priory of the R. J. Reynolds Company, which stands nearby, was saved largely because the wind was blowing in a different direction. The total loss will range between \$15,000 and \$20,000 which is partially covered by insurance. The building was used as a storage by the tobacco company, R. B. Sempe, manager and at the time of the fire it was stocked with manufactured tobacco, including cigars, cigarettes and smoking tobacco, valued at about \$15,000. The fire was noted by a pedestrian passing out of the rear section of the street level floor. Firemen were quickly called but the inflammable material in the building and the hold already obtained by the flames made the task of saving the building hopeless. Immediate efforts centered on saving 46 head of horses and mules which were in stables in the basement. William Childress, owner of the structure, occupied the basement as a livery stable. By quick and courageous work on the part of several men who did not hesitate to enter the lower part of the structure, it was possible to lead out the horses, many of which were badly frightened. When the heat became so intense that the building could not well be approached.

**WEATHER FORECAST.**  
(Associated Press Local Wire.)  
WASHINGTON, Mar. 4.—Virginia: Rain late tonight or Wednesday; warmer tonight, cooler in extreme west portion Wednesday.  
North Carolina: Showers late tonight or Wednesday; warmer tonight.

## GAVE CARDUI TO DAUGHTER

Alabama Mother Had Thorough Confidence in Cardui, as a Result of Her Own Long, Successful Use Of It.

Gadsden, Ala.—"My back and hips gave me a great deal of trouble before my first baby was born." Mrs. W. J. Dougherty recently told a visitor at her home on Route 2, here. "When I became pregnant," continued Mrs. Dougherty, "I had the same trouble, only worse. Medicines did me no good at all; in fact, I got worse instead of better. Finally, when I had given up hope of getting well, a neighbor told me about Cardui. My husband got me a bottle and I started on it at once."

"Immediately I began to improve. I have taken Cardui ever since when I get purgative. For female trouble it can't be injured. I told my daughter when she was thirteen, 'I took because I suffered so from aching all over—arms, legs and head. My head would ache for weeks at a time. After taking Cardui I have completely recovered.'"

"Cardui is a perfectly harmless mild, purely vegetable extract of medicinal herbs. One of the ingredients of which it is composed has been known to medical science for over six hundred years and has been recommended by medical writers as being of great value in many female ailments. Sold everywhere."

Try the drug store first.

## Kissed Girl On Dare, Teacher to Be Ousted

(By The Associated Press.)  
KANSAS CITY, Mo., Mar. 4.—The city board of education, after a stormy session last night, unanimously voted to oust E. B. Damon, high school printing instructor, for kissing a girl senior. Damon claimed he was the victim of a plot and nearly three students at the meeting applauded when he finished arguing the charge.

The girl whom Damon kissed addressed the board in behalf of the instructor. She said Damon kissed her "on a dare" and "we would have thought we had scored against any teacher if he had refused a dare."

The girl told the board that Principal C. T. Rice had reported the kissing incident after she told him of it in confidence. Damon said he would file charges against Rice.

**HE'S PRESIDENT**  
CHICAGO, Mar. 4.—Alvin Washington Van Dorston, a violin maker, has announced himself for the eighth time a candidate for United States president. He plays no political favorites as his announcement submits his name to both major parties.

**150,000 NEW REDS**  
MOSCOW, Mar. 4.—More than 150,000 applications for membership in the Communist party have been received here in the campaign for 100,000 new members. Party leaders now expect to start a campaign for 1,000,000 new members, admitting only proletarian workmen and peasants.

## FROM NOTHING TO \$350,000 IS NEGRO FORTUNE

Was "Sucker" When He Bought 80 Acres of Desert Land But Oil Soon Gushed Forth.

(Copyright, 1924, by The Bee.)  
SAN FRANCISCO, March 4.—Work is the mostest thing that Mistah William B. Cochran, late of Fort Worth and Loving county, Texas, wants everything else but in this respect, Mistah Cochran is like a lot of other humans. But in his particular case, wantin' is havin'.

"From now on, world, me and work doan' speak no more," declares Mr. Cochran as he fondles a bank book showing \$350,000 deposited to his credit—350,000 berries that he can draw a check against any time, and spend as he pleases.

Until two days ago, Mistah Cochran, as his admiring friends now call him, was the sole owner, and also the sole motive power of an "auto laundry" conducted on space rented from a downtown auto parking station. His sole assets were a length of hose, a

sponge, a chamole skin and a strong right arm.

Before that Mistah Cochran had a similar motor laundry, with about the same assets, in Fort Worth. He felt the urge to see the world, however, so he came to California. Before he left, though, somebody induced him to buy eighty acres of land in Loving county, at \$10 an acre—on the installment plan.

Mistah Cochran used to live—in fact, was born in Loving county, and he bought the land sight unseen. Before he departed from the Lone Star State, however, he went out and took a look at his estate. It was all sand. But Mistah Cochran was an honest man and he kept up his installment payments.

Recently they struck oil in Loving county, but Mistah Cochran didn't know anything about it, so he kept on massaging autos. What happened after that is best told by our hero himself:

"Thursdays mawnin' I was working hard, unuddin' autos, when two white gentlemen calls on me," says Mistah Cochran. "We wants your land and is willin' to slip you 350,000 bucks for it," says they.

"—does you take it or does you leave it," asks the white folks.

"I doan do nothin' else but," says I—and da you is."

Mistah Cochran, who is only a few shades darker than coal tar, and who, before the advent of oil in Loving county, was quite undistinguished among his colored brethren already in the leading social light in San Francisco's black belt. His land was purchased by one of the biggest oil companies in the mid-continent field.

Three thousand, six hundred and sixty-one aliens were deported by the United States last year.

## DIES IN NEW YORK.

N. L. Dairymple has received intelligence of the death of his mother-in-law, Mrs. Katherine Gunthart, last night in New York City. Mrs. Dairymple was called to the bedside of her mother last Tuesday and has been with her since.

## BIRTH ANNOUNCEMENT.

Born to Mr. and Mrs. G. K. Murrell, 537 Keen street, on March 1st, a seven-pound son, George Kemper, Jr. **TOO LATE FOR CLASSIFICATION**  
For Rent: Two Furnished Bed Rooms, kitchenette and bath. 503 1/2 Wilson St. Phone 1129. 462

## Have you Piles?

Then You Have Something to Learn  
Thousands who have piles have not learned that quick and permanent relief can only be accomplished with internal medicine. Neither cutting nor any amount of treatment with ointments and suppositories will remove the cause.

Bad circulation causes piles. There is a complete stagnation of blood in the lower bowel and a weakening of the parts. Dr. J. S. Leonard was first to find the remedy. His prescription, HEM-ROID, is now sold by all druggists. Dr. Leonard tried it in 1000 cases with the marvelous record of success in 98 per cent. and then decided it should be sold under a rigid money-back guarantee.

Don't waste any more time with outside applications. Get a package of HEM-ROID from Patterson Drug Co., today. It has given safe and lasting relief to thousands and should do the same for you—it seldom fails.—adv.

**CREAM OF GOLFERS**

**TO PLAY FOURSOME FOR WORLD TITLE**

(By The Associated Press.)  
MIAMI, Fla., March 3.—Sixteen professional golfers, the cream of the golf world, will start play here tomorrow in the first International Professional Team Championship Golf Tournament for 1924 in which a national title is involved. The team which survives three 36 hole rounds of match play will be awarded the International team championship of the world.

The tournament, officially sanctioned by the professional golfers association in the first of its kind and will be an annual affair here.

In the first match on the Miami country club course tomorrow morning the European team of Arthur Havers and Jimmie Ockenden will meet Freddie McClen and Leo Diegel.

Bobby Cruikshank and George McLean will play Mike Brady and Jock Hutchison; Willie Melhorn and MacDonald Smith will play Gene Sarazen and Johnny Farrell; and the famous French and Clarence Hackney will play Walter Hagen and Joe Kirkwood. This field is the fastest ever assembled outside an open or national professional event. It is said, and Jim Barnes is among the few important golfers who was unable to enter.

Champions of four nations are represented in the entries list. Havers holds the British and Ockenden the French open titles. Sarazen is the professional champion of the United States and Hackney holds the Canadian title.

**MORNING STOCK LETTER**  
Thomson & McKinnon

NEW YORK, Mar. 4.—The Supreme Court rendered a decision in a case involving the New York Central Railroad which may be applicable to the plan of the Pennsylvania to acquire control of the Norfolk and Western. Under this decision I think it is doubtful if the Interstate Commerce Commission will permit the lease.

What is the matter with the bond market? The Argentine bond is a pretty good issue and still it could not be marketed successfully. I wonder if this is an indicator of a change in the investment situation. The most important piece of news is the auction sale of carpets and rugs, prices from ten per cent to fifteen per cent lower. Does this mean another change in the trend of commodity prices? One thing is certain, if higher prices are bullish lower prices can't be.

The general outlook appears doubtful to me and would continue to sell stocks on the bulges.

**NEW YORK COTTON.**  
(By The Associated Press.)

NEW YORK, March 4.—The cotton market opened barely steady today at a decline of 20 to 32 points in the old crop months, on overnight selling orders. Liverpool advices were more encouraging, however, while there were private reports of rains delaying farm work in some sections of the southwest and new crop months opened six points lower to 27 points higher with the general list showing rallies shortly after the call on covering. Except for the light rains reported in some parts of Texas, weather conditions in the south were considered generally favorable. Trading was fairly active at the start but became comparatively quiet on the rally which carried May up from 27.85 to 28.32 during the early trading.

**MORNING COTTON LETTER**  
Thomson & McKinnon

NEW YORK, Mar. 4.—Nothing about the cotton market attracts me but the price and nothing prevents me from urging further sales but feeling that too many traders have already taken the short side, I expect a strong rally from these prices and thing a trading position with purchase on breaks the best policy for the present.

The record for height attained by airplanes is held by Sadi Lacoate of France, who ascended 35,178.33 feet. Canada imported goods worth \$600,000,000 from the United States in the year ending in October 1923.

**RADIO**

Get ready for a lot of mysterious radio interference, warns the astronomer, Dr. David Todd. He announces that another big period of sun-spots has started. These are spread out on the sun over an area 45,000 miles across. The largest of this group of spots is 9,000 miles wide.

Sun-spots, according to scientific theory, affect radio through the displays of aurora borealis which they create. Radio fans in the Far North tell us that "northern lights" tend to cause fading rather than noise.

Edison suggests that the sun is the source of our electricity. Maybe the radio bug has the sun for his slave without knowing it.

**WEALTHY**

An obscure barber in Harrison, N. Y., gets word he is heir to a fortune of 75 million dollars. This money has been held in trust by the French government for more than a century. The history of the case involves old-time sailors, a kidnapping and other highlights of adventure.

It appeals to the imagination. But, according to Christian Science Monitor, there are more than 200 personal fortunes in the United States estimated at over 50 million dollars apiece. This certainly is a land of opportunity—though, often, only for a few.

**CONVICTS**

Over 61,000 offenders were convicted in the courts of New York state during 1922. It's announced. A fourth of these were cases of intoxication. The rest were more serious offenses, ranging from murder down to assaults and petty thefts.

Disregarding the drunks, New York still has enough to fill a jail as big as many well-known cities. It amounted to one person in every 226 of the state's population. Is that surprisingly large or surprisingly small?

**DRAFT**

Did you read about the "universal draft" bill introduced by Senator Capper? It would empower the president in wartime to draft, in addition to cannon-fodder, any material resources, industrial organizations and personal services desired.

A law like that, in force in every country, would put an end to wars. If war loomed and Uncle Sam got ready to conscript private fortunes and factories and draft every one into national service at soldier's pay, the big fellows quickly would put on the brakes and talk peace. The people who yell loudest for war hardly ever go themselves.

**MAIDEN LANE**

Many detective thrillers have been written around Maiden Lane, New York City. The street is the jewelry headquarters of our continent. Especially for diamonds, which flow through it by thousands.

Thirty prominent jewelry firms, mainly wholesalers, are quitting Maiden Lane to move uptown. They are fleeing from high rents. Rents will overtake them, however. That's the experience in all cities when business districts move. Land values and high rents follow the producers.

**RHINELAND**

Germany adds up and finds she has paid about one and a quarter billion dollars for upkeep of the Army of Occupation since the armistice.

Occupation of the Ruhr has cost France 73 billion francs in a year. These terrific sums would make quite a hole in reparations account if applied that way.

The bill collector's expense account seems to eclipse what he collects and turns in.

NEW YORK, March 4.—Mack Truck directors meet for dividend action at 11 a. m.

Assembly passes bill for 25 per cent. cut in New York State income tax already passed by Senate.

Treasury Department estimates tax bill passed by House will cut revenue \$446,000,000 leaving deficit approximately \$116,000,000.

President designates Samuel Knight special counsel to test title of Standard Oil of California to oil reserves in that State.

Lowes, Incorporated, declared regular quarterly 9 cents dividend.

Willys-Overland 1923 net after interest and depreciation \$13,034,032 or \$9.11 a share on preferred against \$2,779,831 or \$12.69 on preferred shares in 1922.

Armour & Company year ended December 29, 1923, net after depreciation, etc., \$15,691.27 or \$1.66 a share on common B.

American Bank Note 1923 net equal to \$16.04 a common share against \$13.95 in 1922.

Worthington Pump 1923 net equal to \$5.08 a common share against net of \$379,685 in 1922.

Lima Locomotive 1923 net equal to \$11.23 a common share against 25 cents in 1922.

Houston Oil 1923 net equal to \$3.97 on common share against \$2.75 in 1922.

Oakland Motor Car February sales 7,999 cars, 1,000 in excess of any previous month.

Appearance of salt water causes pinching in of several wells in California heavy oil district of Mexico. Wells affected include those of Standard Oil of New Jersey and Sinclair.

Strike of shipyard workers at Southampton forces cancellation of sailing of Mauretania being overhauled there.

Average price twenty industrials 97.19 off 36, twenty rails \$9.31 off \$1. forty bonds \$7.41 unchanged.

There are about 170,000 men and women in prisons in the United States.

**Bobbed Hair**  
Bandits Working Believed Men

(By Chicago Tribune Service.)

NEW YORK, March 4.—Brooklyn and Manhattan police today are convinced the "bobbed hair bandits" whose operations have been frequent of late weeks and who were thought to have been associates of members of bands of highwaymen, were men disguised as women.

The decision of the police followed the capture early today in Brooklyn of two more "ladies" who proved to be Fred Martino, seventeen, and Clarence Wilson, nineteen, both of Brooklyn. They were arraigned in Gates Avenue court this afternoon and held without bail for re-examination on March 5.

A third man, James Ray, twenty-one, found in Wilson's room, was also held for further investigation.

**NEW YORK STOCKS.**

(By The Associated Press.)

NEW YORK, March 4.—Uncertainty over putting the speculative outlook in respect to the bonus legislation and the oil inquiry was again responsible for mixed movements at the opening of today's stock market. Over-crowding of the short interest in American Woolen caused an initial rise of three points by that stock, while Standard Oil of California started a point lower.

**POULTRY.**

(By The Associated Press.)

CHICAGO, March 4.—Poultry alive steady; fowls 24¢ 25; springs 27; roosters 17; geese 15.

**CHICAGO GRAIN.**

(By The Associated Press.)

CHICAGO, March 4.—Speculative selling of corn had a bearish effect on the corn market today in the early trading and on wheat as well. Initial corn prices ranged from quarter cent decline to a shade advance. Wheat opened at 1-4 cent lower to 1-8 cent advance. Oats started unchanged. Higher quotations on hogs gave firmness to provisions.

Mrs. W. H. Felton, 87, served 22 hours and 25 minutes as United States senator from Georgia.

Immigrants to the United States last year numbered 322,719; emigrants to other countries numbered 31,450.

Attorney General Daugherty does not seem to realize that the question is not one of where he stands but how.

**Fordson**

THE UNIVERSAL TRACTOR

Mr. McNichols writes:

"I have been using my Fordson Tractor since 1920, and the only cost of upkeep, outside of gas and oil, has been the purchasing of two timers and one valve. Previous to the time I purchased my Fordson, I used a Tractor that cost me \$1,185.00. This tractor was of no value to me except to saw-mill and thresh wheat.

"I purchased my Fordson and it took the place of the other Tractor, and I have used it for grinding, plowing, discing, sawing, mowing, and many other operations around the farm. The Fordson takes the place of from four to six horses or mules, and it only requires one man to handle it.

"On farms where power can be used, the Fordson is the very best investment that a farmer can make.

"The service I have received on my Tractor, has been all that could be asked for. I have always received prompt, efficient and courteous service.

(Signed.)

JAS. E. McNICHOLS.
